Most people can watch your mix online. We can also create a video that people can download and watch offline. It won't contain quizzes, or other apps, and it will take a few minutes to create.

Video size

- Full HD (1080p)**
For viewing on a computer monitor, projector, or high definition (HD) display. This option creates a high-quality video with a large file size and takes longer to process.
- Computer & HD Displays (720p)**
For viewing on a computer monitor, projector, or high definition (HD) display
- Internet & DVD (480p)**
For viewing on the web and burning to standard DVDs.
- Portable Devices (240p)**
Portable devices video quality. Small text may be difficult to read.

Seconds spent on each slide

File Explorer window titled "HowToCreate" with a pink "Play" button in the title bar. The ribbon includes "File", "Home", "Share", "View", and "Video Tools".

The ribbon tabs are:

- File
- Home
- Share
- View
- Video Tools

The ribbon groups and their items are:

- Clipboard: Pin to Quick access, Copy, Paste, Cut, Copy path, Paste shortcut
- Organize: Move to, Copy to, Delete, Rename
- New: New folder, New item, Easy access
- Open: Properties, Open, Edit, History
- Select: Select all, Select none, Invert selection

Navigation pane on the left shows "Quick access" with Desktop, Downloads, and Documents.

Address bar: > HowToCreate

Search bar: Search Ho...

- Page
- URL

The page module enables a teacher to create a web page resource using the text editor. A page can display text, images, sound, video, web links and embedded code, such as Google maps.

Advantages of using the page module rather than the file module include the resource being more accessible (for example to users of mobile devices) and easier to update.

For large amounts of content, it's recommended that a book is used rather than a page.

A page may be used

- To present the terms and conditions of a course or a summary of the course syllabus
- To embed several videos or sound files together with some explanatory text

Page content 

The image shows a rich text editor toolbar with various icons for text formatting (bold, italic, underline, strikethrough, subscript, superscript, bulleted list, numbered list, link, unlink, insert link, image, video, document), alignment (left, center, right, justified), font settings (font family, font size), and other tools (code, indent, outdent, link, unlink, insert link, image, video, document). Below the toolbar is a video player interface. The video player has a dark header with a profile icon, the word "Instruction", a clock icon, and a share icon. The main content of the video player shows the title "เปลี่ยน PowerPoint Slides ให้เป็น สื่อ online" in Thai text. Below the title are two bullet points: "• ทำได้ง่าย ด้วยตัวเอง" and "• Anyone, anywhere, anytime". A large play button is centered over the video content. At the bottom left of the video player, the text "Path: p" is visible.
