Master of Nursing Science Program in Adult and Gerontological Nursing

(International Program)

Faculty of Nursing Prince of Songkla University, Thailand

Vision

The Faculty of Nursing, Prince of Songkla University is a leading international nursing educational institution that creates innovation of continuity of care.

Philosophy

Master of Nursing Science Program in Adult and Gerontological Nursing (International Program) is designed under the belief that:

(1) The quality of nursing practice must rely on knowledgeable personnel, understanding of nursing science and related sciences; including Eastern wisdom in order to provide holistic healthcare that is consistent with a diversity of lifestyles and culture.

(2) We always develop Nursing and public health knowledge as empirical evidence through continuous research. The nurse practitioner must have a passion for knowing and skills in systematic knowledge acquisition and then, transfer it from empirical evidence to practice by taking into account individuality within the context of cultural differences. We also, continue to develop knowledge through continuous research.

(3) Graduate study management is the process of developing learners from the original knowledge base to becoming a specialist nurse by using empirical evidence, exchanging knowledge between learner and instructor while acknowledging differences in the background of learners. Specifically, clinical experience and patient care in other health systems.

Types of Courses	Curriculum
	Plan A(A2) (Credits)
Core Courses	9
Specialty Courses	12
Elective Courses	3
Thesis	12
Total Credits	36

Study Plan

Year 1 Semester 1

- 641-511 Eastern Philosophy and Nursing Theories
2 credits
