

Master of Nursing Science Program in Adult and Gerontological Nursing
(International Program)

Master of Nursing Science Program in Adult and Gerontological Nursing (International Program) focuses on producing graduates who are able to create and disseminate research and innovation in nursing for adult and older persons to the public in national and international level as well as promote well-being and care for adult and older persons with complex problems by integrating nursing science and related concepts for good nursing outcomes. In addition, the learners will be able to perform lifelong learning to develop oneself and one's career, demonstrate a clinical leader in initiating change to promote service quality for adults and older persons with complex problems, both individually and in groups, apply information technology systems to develop nursing research and nursing quality, express behavior that reflects morality, ethics and follow the motto "Our Soul is for the Benefit of Mankind", and communicate and work effectively with interdisciplinary professionals and relevant persons.
